- Time management
- Collaboration
- Problem-solving
- Hardworking

#### LANGUAGES

- Ukrainian Native
- English Upper-Intermediate
- German Advanced

# Vira Mesha

Front-end developer

#### **SUMMARY**

An enthusiastic and motivated junior front-end developer with a passion for web development and a solid foundation in front-end technologies such as HTML, CSS, and JavaScript. Although I have no prior professional experience, I am eager to learn and grow in a fast-paced development environment. I have experience working on team projects during my education, where I have honed my skills in responsive design, user experience, and collaboration. I am dedicated to continuous improvement, both personally and professionally and I embrace feedback and constructive criticism as opportunities for growth and development.

# PROJECT EXPERIENCE

<u>Filmoteka</u>, <u>Link</u> [HTML, SASS, JavaScript, REST API, Axios, Parcel, Pagination, Animate.css]

A two-page movie catalogue website with adaptive design, dark theme, pagination, and a movie library that lets users add titles to "queue" or "watched" lists. Role: developer (header section)

#### FoodSta, Link [HTML, SASS/SCSS, JavaScript, Parcel]

It's a user-friendly website for ordering food online with an adaptive layout for convenient use on any device. My role was scrum-master and I also created the offerings section, which includes a well-designed user interface and engaging animations to improve the ordering experience.

#### WebStudio, Link [HTML, SASS/SCSS, JavaScript]

It's a two-page website for a webstudio. With an adaptive layout, the website is optimized for use on any device, providing a seamless user experience.

#### WORK EXPERIENCE

# German-speaking Representative Contact Center AUTODOC

Jul 2021 - Apr 2023

- Provide customer service and support by email and chats
- Offer classic inbound service
- Take purchase orders
- Provide information about the status of orders
- Process complaints

Achievement: In April 2023, I overachieved the KPI plan by 70%

#### **EDUCATION**

#### IT School | GoIT

Jun 2022 - May 2023

Fullstack Developer

### **Kyiv National Linguistic University**

2015-2020

Master's degree, Philology (German)
