- Collaboration
- Problem-solving
- Hardworking

LANGUAGES

- Ukrainian - Native
- English - Upper-Intermediate
- German - Advanced

SUMMARY

An enthusiastic and motivated junior front-end developer with a passion for web development and a solid foundation in front-end technologies such as HTML, CSS, JavaScript and React. While I'm still in the early stages of my professional journey, I bring valuable experience gained from active involvement in volunteer projects at Baza Trainee Ukraine and Team Challenge. Engaged in the final stages of a volunteer project at Team Challenge, I have strengthened my skills in collaborative development, responsive design, and user experience. I am dedicated to continuous improvement, both personally and professionally and I embrace feedback and constructive criticism as opportunities for growth and development.

PROJECT EXPERIENCE

Valwax, Link [React, Next.js 13, TypeScript, i18n, React Slick, React Hook Form]
A dynamic online shop where users can explore and purchase a variety of candles and boxes, with the unique option to customize their own candles.

Remote demining, Link [Next.js 13, Next.js App Router, React Hooks, TypeScript, React Hook Form, React Slick, Yup]
This volunteer initiative developed an interactive platform for Remote Demining awareness, featuring sliders, info cards, news, and user registration on the admin platform for secure access.

Your Pet, Link [React, React Hooks, Redux Toolkit, Routing, Formik, styled-components]
The web app enables users to post ads, register, customize themes, manage favorites, search, and apply filters.

Filmoteka, Link [HTML, SASS, JavaScript, REST API, Axios, Parcel, Pagination, Animate.css]
A two-page movie catalogue website with adaptive design, dark theme, pagination, and a movie library that lets users add titles to "queue" or "watched" lists. Role: developer (header section)

FoodSta, Link [HTML, SASS/SCSS, JavaScript, Parcel]
It's a user-friendly website for ordering food online with an adaptive layout for convenient use on any device. My role was scrum-master and I also created the offerings section, which includes a well-designed user interface and engaging animations to improve the ordering experience.

WebStudio, Link [HTML, SASS/SCSS, JavaScript]
It's a two-page website for a webstudio. With an adaptive layout, the website is optimized for use on any device, providing a seamless user experience.

WORK EXPERIENCE

German-speaking Representative Contact Center
AUTODOC

Jul 2021 - Apr 2023

- Provide customer service and support by email and chats
- Offer classic inbound service
- Take purchase orders
- Provide information about the status of orders
- Process complaints

Achievement: In April 2023, I overachieved the KPI plan by 70%
